

# 3pk super manual

Level **LV3** Only

Boat Mode **BOAT-MODE**

**DEFINITIONS:**

- **Boat mode:** Set ups to fit specific needs of boat models rather than cars.
- **TRG-BRK:** Trigger-brake operation. Shuts off brake side of servo movement for boats without braking reverse.
- **Tilt Mixing:** adjusts outboard engine positioning with rudder inputs, and adjusts rudder with outboard engine adjustments.
- **Channel 1 > 3:** mix from steering (rudder) to outboard. Utilized when the boat drops too much (or too little) into the water when giving rudder input.
- **Channel 3 > 1:** mixing from outboard to steering (rudder). Utilized when the torque of the engine has more effect as the boat's position changes in the water, causing the boat to yaw left under acceleration.

**AVAILABLE FOR:** NA

**ADJUSTABILITY:**

- **TRG-BRK:** Normal (brake operates); cut-off (no brake/reverse operation).
- **CH 1-3 and CH 3-1:** -100% (moves exactly opposite) to 0 (no mix) to +100% (moves exactly the same as master)

**INTERACTIONS:**

- EPA, steering expo, speed, dual rate, etc., all affect the 3rd channel (master mixing is on and can not be set to off.)
- Reversing the channel 1 servo does NOT reverse the channel 3 servo.

**DESIRED END RESULT:** Keep outboard-powered boat up on its step and traveling straight at high speeds/rapid acceleration, and adjust the boat's angle in the water for ideal turning with minimum drag.

**CAUTION:** Remember, EPA of channel 1 affects channel 3, so check for binding after all changes.

GOAL:	STEPS:	INPUTS:
Set up an outboard boat's engine tilt to set the boat lower in the water when turning for better "bite," while using <b>ED</b> . If using <b>LV1</b> or <b>LV2</b> , first select level <b>LV2</b> , see p. 12.)	Open and select menu 2.	Ⓞ Ⓞ Ⓞ
	Select <b>BOAT-MODE</b> .	Ⓞ Ⓞ Ⓞ
	Turn off brake function.	Ⓞ to <b>CUT OFF</b> .
	Activate tilt mixing.	Ⓞ to <b>ON</b> .
	Adjust channel 3 to 1 (outboard to steering) mixing to 0 (disabling it).	Ⓞ to <b>0</b> .
	Decrease rudder-to-outboard to 20%.	Ⓞ to <b>20</b> .
Where Next:	Close function and menu.	Ⓞ Ⓞ Ⓞ
	Adjust the throttle servo's EPA ( <b>EPA</b> ): See p. 18.	
	Adjust channel 3's center point ( <b>CH3-POS</b> ): See p. 40.	
	Change channel 3's control ( <b>FUNC-DIAL</b> ): See pp. 34-35.	

**File Name:** 3pk super manual.pdf

If you are a seller for this product, would you like to suggest updates through seller support Amazon calculates a product's star ratings based on a machine learned model instead of a raw data average. The model takes into account factors including the age of a rating, whether the ratings are from verified purchasers and factors that establish reviewer trustworthiness. Our payment security system encrypts your information during transmission. We don't share your credit card details with thirdparty sellers, and we don't sell your information to others. Please try again. Please try again. This technology is exclusive to Bostitch Pencil sharpener Show details Register a free business account Please try your search again later. Comfortably grasp the smooth, curved hand held sharpener, and with easy backandforth clockwise and counterclockwise twisting of the Pencil, feel the ratchet mechanism perfect the point. With a simple turn of a knob, customize Pencil sharpening for a sharp or blunt Pencil tip. Tip Saver technology protects and extends the Pencil life by preventing over sharpening. Easy empty shavings tray quickly, and conveniently, opens from discreet side panel for fast, tidy disposal. Portable, compact size fits in purses, backpacks, pockets, drawers, and more. Comes in an assortment of exciting translucent colors Amazon calculates a product's star ratings based on a machine learned model instead of a raw data average. The model takes into account factors including the age of a rating, whether the ratings are from verified purchasers, and factors that establish reviewer trustworthiness. Please try again later. Wilhelmina 5.0 out of 5 stars I prefer it to most electric ones too since those tend to sharpen lopsided unless you have it inserted just right. It has a ratchet action so easy to use and not tiring and since you can turn the sharpener and not the pencil, its also ergonomic. I think I read someone had trouble emptying it.

You need a little bit of a fingernail and you just pull the little door open. My young kids can do it. Once in awhile, it stops sharpening but is because I break the point off. Just switch the point size to the large setting and it will release the point. Bought two for my kids and two for me and one for the household. Im taking the time to write a review about a pencil sharpener so yes, I really like it. Elated to have 3 of them, originally purchased to give to a little child but after using it, decided to keep them to use with my Graphite Drawing Pencils and my Colored pencils soooo tired of wasting most of my nice art pencils in the sharpener and still not getting a great point. I have purchased many other sharpeners see photo and granted Ive had them for a while. Totally happy and they are nice and compact for traveling. She likes this sharpener. It lasted a long time. How better to treat my wife for her hobby than to buy multiple colors of her favorite colored pencil sharpener. Shes worth it. Earlier she used a battery powered sharpener that chewed up the pencils too fast and did not last as long as this simple Bostitch plastic hand sharpening variety. The yellow button allows for a sharp or blunt setting and the container collects the shavings so she need not run to the waste disposal for every pencil sharpening moment. I was an elementary art teacher before retiring. These are better than what I supplied my classroom pupils, and at a reasonable cost. Id recommend them for current classroom teachers. No mess. No fuss. The sharp blade gives a new tip with little waste dont you hate it when your good colored pencils get shorter and shorter in a regular sharpener., The racheting action makes it quick to use. Other handheld sharpeners, seems like you have to twist and twist and twist, but not this one. Opens easily to empty shavings and clicks so you know its closed again. And on top of all that, the shape is appealing and easy to hold, and it comes in fun colors.

<http://www.drupalitalia.org/node/68540>

I have ordered so many sharpeners trying to find the right one for my prismacolor pencils this is IT! The biggest issue I have with these is the shavings are kind of a pain to get out because they get stuck behind the pencil sharpener. I have to use a pencil to dig the shavings, but it works and gives me a decent point. I only have to give a pencil a few turns to sharpen the point back up. They dont empty them immediately after each use. The edge where the shavings come out faces away from the

hatch where it gets emptied. It clogs on the side with the edge where the shavings come out. Then, once it is clogged, you cant use it anymore. Definitely better than the cheap sharpeners that you get at the store. You can make a sharp end or a sharpened dull end, which is great for kids. Id still expect to sharpen those cheap pencils for a while. The pencil doesnt come out smooth most of the time. I usually try to sharpen my pencils at home with my electric sharpener. This I have as a backup on the go. The twist feature worked only some of the time. I tried it on normal colored pencils too and it was a hassle. I would return but I got frustrated at one and probably broke it more haha. Im going for electric this time. Too much hassle with 4 kiddos. Durable, sharpens well. The only complaint I have is that only one side opens to dump out shavings, and sometimes the shavings get stuck on the opposite side and don't come out easily. Sorry, we failed to record your vote. Please try again Kids have had them for about 2 months in school, and the blades haven't dulled. It was a bit tough to open at first, but was fine after a time or two. Sorry, we failed to record your vote. Please try again I love them, totally worth buying. Sorry, we failed to record your vote. Please try again Sorry, we failed to record your vote. Please try again The container could be bigger, kids are often emptying it out. Otherwise easy to use and easy to teach kindergarteners to use.
