I have enjoyed working with Michael, Daniel and their team at Detector Electronics Corp. They have done a fine job representing the Detector Pro line since it was first introduced in 1996. One of the things I see them do is go the extra mile for their customers. It is always nice to see a family run business endure and we wish them many years of continued success. We appreciate the partnership from Michael and Daniel at MetalDetector.com. As a family owned business, we choose our partners carefully. We have found that their team has done a fine job of representing our line. With thirty years of success under their belt, we expect that they will be a partner for many years to come. We at Treasure Products, manufacturer of the VibraProbe and VibraTector, want to congratulate Daniel and Michael on the admirable milestone of being in business for over three decades. The dedication and product knowledge that your staff exhibits has been a great benefit to us. We offer our best wishes for your continued success. I have found that the team at MetalDetector.com has done a fine job representing the entire JW Fishers line. They have partnered with us in helping to bring our products to both individuals, larger corporate and governmental organizations. Michael and Daniel have established a knowledgeable team that has done the job of getting the correct product in to the hands of each consumer. I wish them continued success as they represent our products in the years to come. I have been impressed by the professional approach and the experience of Daniel, Michael and the entire team at Detector Electronics Corp. Three decades of superior customer care has been the key to their success and large sales volume.

We have enjoyed working with Michael, Daniel and their esteemed team at Detector Electronics Corp. We feel that they have been the best choice for representing the good reputation of the Makro Detectors in the region. They have been working towards 100% customer satisfaction ever since they started their cooperation with us as our exclusive Distributor in the USA and Canada. We are pleased to see both their business and the sales in their region continue to grow. It is nice to see both our family business and theirs growing together. We see our companies moving forward

together for many years to come. Garrett has a longstanding quality relationship with Detector Electronics Corp since the 1980s. I have seen them grow from a regional dealer to one of the largest internet dealers yet they have maintained that special care for the customer for over three decades. Their team of knowledgeable, helpful and friendly staff and family make their dealership a first choice for the treasure hunter. MetalDetector.com has been a valuable business partner to Fisher Research Labs for many years. They continue to grow while still offering the best in customer service and after sale support, which is very important to FRL. We wish to congratulate them on 3 decades of business and stellar service to our mutual customers. Their entire staffs knowledge of our product helps to ensure the customer gets the right detector for their needs regardless of what they might be. We look forward to our future relationship and continued success of MetalDetector.com and their entire staff. I recently had the pleasure of meeting with the team at MetalDetector.com at their newly expanded facility in Southborough, MA. I have to say that I was impressed with their operation and knowledge of the Teknetics product line. When the Teknetics product line was recently relaunched, MetalDetector.com was one of the first partners we contacted.

They have had a long standing relationship with the brand as one of the original Teknetics dealers in the country. We value long standing relationships and are excited to have them as a member of our team. Its been an honor and privilege working with the fine folks at Detector Electronics for over 25 years. Its no surprise that Sondra and Davids fine sons, Michael and Daniel have continued in their parents tradition of being exemplary businesspeople who take the time and care enough to really know their clientele. Its always been a pleasure working with you. DRS Electronics, GmbH is proud to have Detector Electronics Corp. I have known Michael and Daniel for over a decade. Their team is genuine and knowledgeable. They provide exceptional support and service to our customers. They are a recognized leader in the industry. Internationally their business is known for excellent customer support. Their presence is a great confidence for treasure hunters. MetalDetector.com has been a great business partner for many years and the best choice for representing Makro Detectors in the USA. With the addition of Nokta products to their product portfolio in 2018, we are confident that our businesses will continue to grow together for many years to come. By the end I felt I was dealing with a friend rather than a faceless company on the net. Well done! And, by the way, my 7 year old son Juanito found a nickel yesterday when he took his detector out for the first time. If things keep going this way the detector will have paid for itself within a few short decades. But seriously, he is really enjoying it and hoping to find his longdreamedof buried treasure some day. Happy to do business with you, Hello Dan, Remember me. I bought my Tesoro Tiger Shark from you. It came just when you said it would, and works just as you told me it would.

Thanks for your help in sorting through the maze of detectors. Dear Sondra, 1160 GRAM Meteorite. Dont ask where. One of many! As far as being excited I all most had a stroke. Heres a photo of one Meteorite I found on the surface, over 800 grams and a 447 gram one. The one in the middle is my first. The bar magnet has some small Iron meteorites on it. Dear Detector Electronics, I received the Tesoro Sand Shark today.and want to thank you. Tried it, love it, looking forward to many enjoyable hours with it. Thanks again. Dear Customer Service, Just wanted to thank all involved in a recent shipment to me that was a gift for my grandkids. I ordered 2 detectors but for some reason only one was shipped. After calling your company you bent over backwards to get the second detector to me on time for giving to my grandchildren. I explained that we exchange gifts a week early so my children and their families can be in their homes Christmas morning since some travel distances are involved. The second detector arrived last Friday in time for our celebration last Saturday.

THANKYOU. I order quite a few things online and have experienced some terrible companies but you are the best. Best regards and have a wonderful Holiday Season Hi Guys, I have just come in after spending an hour or at my local beach with my son, which is only a 5 minute walk from my home called Deception Bay. This is the first time i have ever used detector. The very first thing it detected in less than a minute was a two dollar coin, boy we were so excited. Not by the amount, but by the fact that on its maiden voyage it detected a coin. We then detected a ten cent piece. We cant wait to take it to a popular beach and I will practice more with the settings. I would like to thank you for your prompt service. My detector arrived at my door In Brisbane Australia in less than a week.

This is the first time I have used any service like this outside of Australia, but with this kind of service and ease of buying and your range of goods this will be the first of many transactions. I just wanted to say thank you to Scott who made my recent purchase so pleasant. I am enjoying my Tesoros and have found lots of cool stuff so far. Just waiting for that first gold find. Thanks again for all the help that was provided in making my decision. Hi Scott, I was amazed at how fast I received my BOUNTY HUNTER. The order arrived in perfect condition, and in only three days after I placed the on line order. The four part series about selecting the right product was also appreciated and helped me to make the right decision for my purchase. You are truly a company that takes care of business and most importantly your customers. It is a pleasure doing business with you and I will gladly recommend you to anyone that wants to buy a metal detector. Thanks for the GREAT SERVICE. Dear Customer Service, I am a very happy camper. Yesterday I took my Garrett Ace 250 out for the first time to some local parks. My total find was about 150 coins. The detector works so well and so easily. It only took me about a half an hour before I new what every button did. PS I plan on buying my next detector from you. Dear Sondra, I purchased an Ace 250 from your site for my 7 year old son and now I am hooked. This is our first metal detector and the Ace does every thing it says it will. Thanks for the fast delivery and introducing my son and I to a great new hobby. Coin shooting in Pensacola, Fl Sondra, I got the detectormy husband was thrilled. Thank you so much. You and Daniel have been so helpful. I am a first time buyer and am feeling very lucky to have found your website. Daniel helped me to locate a really great detector and you have been extremely courteous and prompt in seeing my order through. I look forward using my new metal detector. Hope you have a wonderful holiday season.

We Ship Direct To You Detector Electronics Corp. Michael and Daniel lead the MetalDetector.com team. Each day we set out to provide you with the best customer experience in the industry. Wherever you are in the world, product specialist Maria is here to help. Maria speaks fluent English and Spanish. Heather interfaces between our office and warehouse teams to help expedite orders to our customers around the world. Moe is not only one of our product specialists; he was also one of our first customers. He

has been metal detecting since 1989. Dave keeps all of the great deals and products that you see on our website up to date. When it comes to managing the warehouse to get the orders to our customers quickly and efficiently, Bob, Matt and Jake are our A team.

Tom, Diana and Javier work closely with our customers to provide the highest level of customer care in the industry. Before shipments are accepted from vendors, our team closely inspects inbound orders for accuracy. As metal detectors and accessories are received, our team packages and labels each item. Large shipments arrive from vendors in bulk. They are stored in our newly constructed bulk goods warehouse. Inventory is transferred from the bulk goods warehouse to our main warehouse where orders are picked, packed and shipped to customers. As customer orders arrive in the main warehouse our team hand picks the items. The items picked are checked for accuracy throughout the process. Michael and Bob confer on an item as an order is pulled for a customer. Once picked, orders flow down the conveyor on their way to the packing station. As the order nears the final stages of the process, each order is over packed and then cushioned with recycled materials. Jeremy Stillman 1.0 out of 5 stars It simply didnt function. I called Bounty Hunter directly but they

did not return my call unfortunately, leaving with me no faith in order their products again. Try another brand! I contacted the company, as specified for warranty. They had a list of things it could be and to call for adjustments. There is no way to adjust. What a disappointment. He loves it! It doesn't have too many bells and whistles and sometimes it's not terribly accurate but it works well and he's really gotten into the hobby. We will likely upgrade soon to something more advanced but this was a great value for the money and lots of fun. Or maybe volume control on the unit itself. I can imagine how many beachgoers he's annoyed on his treasure hunts as the alert is very loud. Has different tones for different types of metal. Expandable to easily fit an 8-year-old all the way to an adult. Really is too big for my 5-year-old for whom it was intended, but he likes it and makes due with both hands to hold it. I am satisfied with what it offers for the price. I have found a couple old coins and an old toy car from the 30s and plenty of junk. But overall if you're not going to jump to Garrett Ace series or better this is great. My kids use it as well and have fun with it. I personally am upgrading to the AT Garrett. Haven't been able to use it much, but very impressed with this model. I have already found several coins just playing around for an hour. Can't wait to actually be able to do some serious detecting. We are looking forward to taking this with us camping. The unit is very sensitive and accurate with what it finds.

The unit detected a thin piece of candy wrapper with foil and registered Al on the display. So far, we are happy with our purchase! Man sollte sich unbedingt einen Wasserschutz für die Sonde kaufen, denn sobald die Sonde feucht wird, gibt es nur noch Fehler. Gut ist, dass man auch diverse Einstellungen vornehmen kann und unterschiedliche Metalle ausgrenzen kann. Wie oben geschrieben für Anfänger geeignet, aber nichts für die wirkliche Hobby-Schatzsuche.
