Manual Reload to refresh your session. Reload to refresh your session. Motor brake is a 150% torque, DC rectified short stroke, spring set disc brake for positive braking action and long life with minimal maintenance. Budget 6000 Series Air Hoist Large frame air chain hoists featuring continuous duty service and infinitely variable speed for accurate load spotting. Budget 600 Series Shopair Hoist Variable speed pneumatic power in a compact, lightweight hoist for general commercial applications for loads of 250 to 1,000 lbs. CM Airstar Air Chain Hoist Lightweight hoists with the power for most commercial applications. Features variable speed pneumatic power for spark resistant applications, or where precision and power are key. CM Airstar 6 Air Chain Hoist Lightweight hoists with enough power for industrial applications. CM Shopair Air Chain Hoist Superior lifting speeds, rugged design, and precise load spotting in a portable air chain hoist. Compact lightweight design make it ideal for a workstation or production line hoist. Coffing CAH Large Frame Large frame air chain hoists featuring continuous duty service for precise, infinitely variable speed and accurate load spotting. Aluminum housing is lightweight, compact and strong.

<http://www.drupalitalia.org/node/73207>

Coffing CAH Small Frame Small frame air chain hoists featuring accurate load spotting for specialized lifting applications. Aluminum housing for strength and portability. Yale KALC Air Chain Hoist For tough jobs and every lifting application, available in hook or lug suspension, and in spark resistant models. An economical choice, these hoists are dependably built to withstand the rigors of heavy service and repeated lifting cycles. CM Lodestar Air XL Air Chain Hoist Heavy duty hoists featuring variable speeds and higher capacities than traditional air chain hoists. Popular in automotive and heavy equipment manufacturing, chemical plants, refineries and similar rugged work environments, where the dependability and versatility of CM products has been relied on for many years. Chester SLA Pneumatic Trolley Hoist This low headroom hoist features vane or piston motors and brakes with modulating valves for infinitely variable hoist motion. Its design allows this hoist to operate in extreme low overhead locations where most other "low headroom" hoists can't. Yale YAL Air Chain Hoist A lightweight, economical hoist with pull cord control for accurate load control. These pendant throttle control hoists offer ergonomic onehanded controls for ease of operation. Ingersoll Rand MLK Air Chain Hoist Rugged, reliable MLK series hoists have been on the market for over 25 years. They share a common design with many interchangeable parts. With high speeds and precise spotting, these hoists are ideal for high production cycle operations. Available in spark resistant and slowspeed precision spotting models. A wide range of options and accessories are available. Ingersoll Rand HLK Air Chain Hoist Rugged, reliable HLK series hoists have been on the market for over 25 years. Available in spark resistant models with a KR suffix.

<https://fiaxell.com/images/bose-ds-100se-manual.pdf>

Ingersoll Rand CLK Air Chain Hoist Designed for production applications and loads up to 1100 lbs, the CLK Series is the latest of Ingersoll Rand's line of air chain hoists. Available in capacities from 250 kg to 100 tons. Suitable for hazardous areas. JDN Mini Air Chain Hoist Designed for a range of light duty applications, the Mini hoist is handy, flexible and universally deployable, making it an ideal tool for specialized or unique handicraft workshops. Kito TCR Air Chain Hoist A hoist with 100% duty ratings, fine feathering controls and quiet operation. The TCR pneumatic hoist is a workhorse that can lift all day and all night, with smooth starts and stops, and variable speed operation for extremely accurate load positioning and control. Put this hoist on the top of your list when you need productivity and precision for years on end. Kito TCS Air Chain Hoist For ultrahigh lifting speeds and 100% duty ratings. The TCS offers blazing performance — speeds up to 112 fpm at full capacity—with quiet operation and optimal fine feathering to control your load position. Fast, quiet and precise is an unbeatable combination. Kito AL Air Chain Hoist With built in safety and maintenance features that allow you to work in confidence. ATEX certified to be spark resistant in explosive atmospheres, and engineered to operate completely lubrication free. The AL is a suitable choice for applications in the food, chemical, and pharmaceutical industries that require completely dry exhaust. Kito AW Air Chain Hoist Spark resistant, wash down air hoist, designed for use in limited, corrosive, humid, or outdoor environments where equipment must be washed or hosed off regularly. Based on the AL Series, the AW boasts the same ATEX certification and lubrication free features, with additional wash down capabilities. AIR Wire Rope Hoists Yale Y80 Air Wire Rope Hoist The Y80 series of hoists and trolleys Double Reeved is suited for virtually any lifting application.

<http://www.federicocastelnovo.com/images/bose-dvd-player-manual.pdf>

Shawbox 800 Series Air Wire Rope Hoist For virtually any lifting application, with a modular design and versatility to suit a wide range of capacities, lifts, hoist speeds, and control options. Select the most efficient hoist for your job without wasted capacity. CM TMM140 Air Manipulator Hoist A lightweight and portable alternative hoist, ideal for workstation applications. It weighs less than 20

pounds and operates at 100% A5 duty cycle. The ideal hoist for plants, shops, auto repair, assembly lines and any other application requiring a quick, smooth hoist. ELECTRIC Chain Hoists Budget Manguard Electric Chain Hoist For tough jobs and for every lifting application. An economical choice, these hoists are dependably built to withstand heavy service and repeated lifting cycles. They are easy to service, require minimal maintenance, and offer excellent headroom for every lifting application. The VFD model offers the same quality and toughness with a variable speed control. Budget Shophoist Rugged construction and a high H4 duty cycle for commercial and industrial applications, in a small lightweight design that allows for easy installation and maintenance. CM Manguard Electric Chain Hoist For long life and dependable service in heavyduty applications. Additionally, with its environmentally friendly design, easy access to key components, less maintenance, and enhanced safety feature, the Man Guard is the right choice for your lifting needs. CM Classic Lodestar Electric Chain Hoist The recognized standard in overhead lifting, with power and dependability that has been trusted for generations, for many applications and industries. Now available as an economical 2ton singlereeved unit—the single reeved design prevents the lower hook block from capsizing and damaging the hoist. CM Lodestar XL Electric Chain Hoist A heavyduty design with faster speeds, less reeving, and higher capacities than traditional hoists.

CM Shopstar Electric Chain Hoist Built for rugged industrial and commercial use, this durable hoist features high H4 duty cycles and a compact design ideal for use at workstations and production lines. Standard overload device protects the hoist, operator and surrounding structure from damaging overloads. CM Powerstar Electric Chain Hoist A space saving alternative to wire rope hoists for high speed lifting. This heavyduty hoist is built to maintain its strength and power year after year. Yale KELC Electric Chain Hoist Available with a variety of options for lifting applications, these hoists are designed and manufactured for tough jobs and for every lifting application. An economical choice, dependably built to withstand the rigors of heavy service and repeated lifting cycles. Yale YJL Electric Chain Hoist Compact in size, with standard features such as a multiplied disc motor brake, overload clutch, and adjustable limit switches. The YJLV is a variable speed version. Coffing JLC Series Electric Chain Hoist The JLC is engineered and built for the heavyduty demands of industrial applications. Compact in size but big on features, the JLC boasts a multiple disc motor brake, overload clutch, and chain end stop for safety. Designed for safety, the EC incorporates mechanical load brake, motor brake, and overload clutch as standard. A reliable electromagnetic DC brake engages automatically when power is cut off. With heat treated, case hardened lowwear chain that surpasses ISO Class T. All models include a chain collector bucket. Wright is an industry leader in establishing hoist duty ratings; their standard features are topoftheline, with many optional features. Their hoists meet all industry ASME HST4M standards, mechanically and electrically. Kito SER Electric Chain Hoist A 115V or 220V singlephase powered hoist with the duty cycle of a threephase hoist, the SER is designed to exceed H4 industrial use ratings.

<https://totalyoumovement.com/wp-content/plugins/formcraft/file-upload/server/content/files/1626c4e495177---captivate-5-user-manual.pdf>

Equipped with a TEFC motor and a maintenancefree, selfadjusting, pullrotor brake, the SER is a singlephase hoist that can long lifts and the long shifts of industrial work. Kito ER2 Electric Chain Hoist Designed for peak performance, even on the toughest jobs in the toughest conditions. Its quiet operation and minimal vibration lowers workplace noise pollution, helps reduce worker fatigue and extends the life of the hoist. Practical, durable, the ER gets the job done safely and worryfree. Kito EDL Electric Chain Hoist A standard 115V hoist with speeds up to 44 fpm, with amazing performance for such a small hoist. Designed for productivity and portability, with a variablespeed option to adjust the speed to best suit your application. Kito EDCL Electric Chain Hoist This hoist adds an ergonomic cylinder control to the 115V variablespeed EDL hoist, for incredible productivity that is at home on any production line, while still being small enough to move between job sites. It's

a formidable, flexible combination. Kito FER2 Electric Chain Hoist A foodgrade electric chain hoist, for lifting applications in food, beverage and pharmaceutical industries—where maintaining a pristine environment is critical. NSF H1 compliant foodgrade lubricants on the load chain and in the gearbox mean the hoist is safe for use where incidental contact with product is a concern. Vulcan Electric Chain Hoist The central structure of all Vulcan hoists is made of a steel casting designed to transmit lifting force in a straight line, thus ensuring optimum stress distribution. This also ensures good shock resistance, which increases durability and lifespan. Stahl ST Electric Chain Hoist Powerful, reliable and undemanding as far as maintenance and power consumption are concerned, the ST series comes in 13 SWL ranges, from 125 kg to 6,300 kg. Can be used as stationary hoists with suspension hook or eye, with rigid mounting, or with a push or electric trolley.

Especially suitable for rugged industrial applications. Demag DCom Electric Chain Hoist Proven, simple and highly reliable hoists for everyday needs with typical requirements. Demag DCPro Electric Chain Hoist A fullyfeatured, highlyversatile chain hoist, which can be installed and put into service in minimum time. Includes many standard features that are extracost options on other hoists. Chester ELM Low Headroom Electric Chain Hoist For applications where headroom is limited, these hoists provide smooth, quiet trouble free operation in a variety of Class III applications. Equipped with wormdrive gear reducers, casehardened load chain and are available in capacities from 1 through 25 tons. ELECTRIC Wire Rope Hoists Shawbox World Series Wire Rope Hoist Lowheadroom, heavyduty hoists built to provide long life with higher lifting speeds and precise positioning control. These electric wire rope hoists feature a twospeed motor and oilbathlubricated, triplereduction gearing. Shawbox 800 Series Wire Rope Hoist For virtually any lifting application, with a modular design and versatility, with a wide range of capacities, lifts, hoist speeds, and control options. Choose the most efficient hoist for your job without wasted capacity or overkill Shawbox 700 Series Wire Rope Hoist Designed and manufactured for heavy duty service. This workhorse is built to deliver, dayin and dayout, under tough operating conditions. It can take the most demanding job cycles in stride, while handling the most delicate loads with precision control. Yale Global King Wire Rope Hoist Lowheadroom, heavyduty hoists built for long life with higher lifting speeds and precise positioning control. Yale Cable King Wire Rope Hoist Monorail or deck mount versions for use in a variety of standard industrial and hazardous environments. Coffing WR Series Wire Rope Hoist High performance engineering—with standard mechanical load brake, motor brake, and overload protection—and the advantages of wire rope.

Stahl Wire Rope Hoist Available from 500 kg to 125,000 kg, these hoists are based on a proven, mature modular system that combines the highest level of quality with costeffective production. This means that we can freely combine components to design a hoist that is a perfect match for your requirements, regardless of whether it's a standard or customized product. Kito RHN Wire Rope Hoist RHN wire rope hoists from Harrington are designed and built for today's heavyduty applications, with stateoftheart engineering and construction that features a blockoperated limit switch, graphite castiron rope guide and premium wire rope. Compact modular design and shortend approach mean you can still get the longest hook travel possible in places with limited space and ultralow headroom. Its protection unit RPU will disable the unit when someone attempts a lift that's over capacity, preventing injuries and damages on the job site. Demag Wire Rope Hoist The Demag DMR modular rope hoist's groundbreaking flexibility makes it suitable for all types of applications, from stationary installations to cranes. For the first time, a rope hoist can be built either in a Cdesign or coaxial design utilizing one fundamental technology. Smart interfaces and corresponding fittings and accessories extend the range of possible DMR applications even further. Can also be dual hook floor and ceiling mounted. ELECTRIC Winches MyTE Winch One of Myte's most popular winchoists, the 100 AB is the 115v AC solution for mediumduty in plant or mobile applications. With a 1,000 lb single line or 2000 lb double line lift capacity and a triple redundant braking system for optimum load control, the 100 AB is great for multiple story construction site work and conveyor

belt maintenance. Thern Winch Thern winches and cranes have a worldwide reputation for toughness, versatility and reliability, with a full range of services and custombuilt solutions. Whether you need to lift, pull, tension or position, from 100 lbs.

MANUAL Hand Chain Hoists CM Cyclone Hook Mount Hoist Featuring superior engineering, efficiency and durability, the CM Cyclone Hand Chain Hoist is considered one of the most popular and reliable hand chain hoists ever designed. CM Cyclone Army Type Hoist The CM Cyclone Army Type Trolley Hoist combines superior engineering, efficiency and durability in a compact, low headroom trolley mount ideal for applications requiring movable hoists. CM Cyclone Low Headroom Hoist Hoist and the trolley are combined for even lower headroom applications. The hoist features superior engineering, efficiency and durability in an integrated allinone design. CM 622 Hook Mount Hoist A compact, efficient, economical design, with low headroom and lightweight steel construction makes this hoist easy to install, even in confined spaces. CM Hurricane Hook Mount Hoist The CM Hurricane 360. A unique hand chain hoist, the CM Hurricane 360. Budgit USA Series Hook Mount Hoist These lightweight, compact hooksuspended hoists are designed for portable, hookon, useanywhere service. The rugged design provides long life in industrial and construction service and is frequently used in rigging and offvertical type lifting requirements. Budgit USA Series Army Type Trolley Hoist For applications where a closer headroom is required, the Army type consists of a lug suspended hand chain hoist with a rigid mount trolley. With all the fine features of the Budgit USA Chain Hoist, with a lug suspension instead of the normal hook suspension. Chester Zephyr Chain Hoist The Chester Zephyr Clevis Type Hoists are steelframed hooksuspended hoists built and tested to rigid specifications that exceed industry standards. They offer headroom advantages and retain the rockandswivel flexibility of standard trolley suspension. Chester AM Hook Mount Chain Hoist The Chester Model AM Army Type Trolley combines light weight and versatility in an economicallypriced armytype manual chain hoist.

With a wide range of capacities, the beammounted Model AM is compact and built to last under heavy use in a full range of cargo and material movement applications. Plus they're available through the Chester Quick Shipment Program. Coffing LHH Manual Chain Hoist Featuring stampedsteel construction, these are an excellent lowcost option in the Coffing line. The compact, lightweight design is ideal for construction and contractor applications where portability and easy rigging are critical. Kito CF Series Hook Mount Hoist The CF exemplifies simplicity in design while making zero compromises on performance. The diecast aluminum body reduces weight and won't corrode. Plus, the proven 11 ratio gear system makes it a fast hoist that's reliable and maintenance friendly. The CF is simply the best choice when you need an economical hoist that doesn't skimp on toughness. Kito M3CB Hook Mount Hoist The CB has unmatched pulling power in the most extreme conditions. Exceptional, heavygrade components make this a long lasting workhorse that tackles severe 40. C temperatures and truly hostile northern winters. Kito HCB Hook Mount Hoist The world's first dualspeed manual chain hoist. Kito's innovative magnetic clutch technology senses the load and changes gears automatically to work seven times faster when repositioning an unloaded hook. Kito SHB Low Headroom Trolley Hoist For low headroom applications, the lowprofile SHB hoist and trolley combo work where others can't. Built around the quality CB hoist with headroom as low as 4.5 inches, the SHB is ideal for demanding industrial lifting applications where space is extra tight. Kito CX Hook Mount Chain Hoist With its smooth lines, integrated aluminum body and impossibly small size, the CX might seem better suited for displaying than working. Not true. The CX is a remarkable engineering achievement in both design and performance, weighing in at less than 6 lbs with a lifting capacity of 550 lbs.

Its heattreated gears and innovative brake system are sealed to protect against damage from dust and water. And its hooks have tipsupported latches and wide openings to perform jobs big or small. With automatic brake engagement and a doublepawl braking mechanism with asbestosfree friction

discs. Jet L90 Hook Mount Hoist Featuring lightweight steel construction— the housing, sheaves and frame are all steel—with a handwheel cover that prevents dirt and dust from hampering operation. A rolled edge on the L90's cover acts as a chain guide and allows smooth operation even when pulling. Jet L95 Hook Mount Hoist The L95 series is equipped with an automatic overload protection device as standard equipment. Overload protection is preset at 120% of rated capacity. Jet VCH Hook Mount Hoist VCH series standard duty hoists feature triplespur gearing for efficient operation, hardened steel roller bearings for easy operation, a dualpawl Westonstyle brake with premium nonasbestos brake discs, a Grade 80 load chain, and top and bottom safety hooks that bend slowly to warn of overloads. They are load tested to 150% of rated capacity with certificate, and meet ASME B30.16 standards. From an ISO 90012000 certified factory. Jet KCH Hook Mount Hoist The KCH hoist is triple spurgeared for efficient operation, with maintenancefree sealed bearings for reduced operator effort. A dualpawl Westonstyle brake with premium nonasbestos brake discs and with extraheavy pawl springs provides safe, reliable operation, and an extrathick ratchet gear protects the brake disc from contamination. Grade 100 load chain provides greater strength. Ingersoll Rand Designed for the modern workplace with safety and performance in mind. Meets or exceeds world specifications including ASME B30.16. This valuepacked product with premium features at a great price is ideal for rental or construction. They feature highquality heattreated alloy steel load chains, two load chain guides and Westontype brakes.

The hooks are forged heattreated steel, the hand chain is zinctreated and 3 foot less than lift. They are finished in safety orange with capacity markings. They provide a dependable working tool for industrial maintenance, construction sites, machine shops, and production situations where parts need to be positioned accurately but infrequently. MANUAL Lever Hoists Jet VLP Lever Hoist Jet's most economical lever hoist, with a coldformed stamped steel housing, and a Grade 80 load chain with hardened steel roller bearings for easier operation. Jet KLP Lever Hoist Featuring a highimpact gear case and brake cover for heavyduty service, and a Grade 100 load chain for greater strength. Deformation indicators on its hooks allow for accurate measurement and easy maintenance. Jet MiniMite II Series Lever Hoist Jet's superduty lever hoist, with an improved design that is smaller and lighter than the original MiniMite. Capable of functioning at up to 40 C with suitable winter lubrication. It features a highgrade lowwear chain, with an easy freewheeling system to automatically return to hoisting mode when load is applied. CM Bandit Ratchet Lever Hoist One of the most compact, durable ratchet lever hoists in the industry. CM 653 Lever Hoist Featuring a short handle and minimal lever pull effort, combined with highquality, rugged steel for close quarter pulling, stretching, and hoisting applications. This lever hoist is ideal for a wide array of applications in construction, industrial and plant operations. CM 640 Puller Lever Hoist A heavyduty lever hoist for pulling, lifting, dragging, and stretching construction and industrial applications. The Puller is built for ease of use, ease of maintenance and long life. CM Short Handle Lever Hoist The same heavyduty design as the Puller in a smaller size for lighter loads and tighter spaces. Designed for heavyduty construction and industrial applications.
